## Why Doña Blanca 100%?

Because of its name, its elegance and because, despite being little known in the great world of the white grapes for the production of quality wine, Doña Blanca is not a minor variety. Rich in aromas, with a touch of mineral, typical of the berciano terroir, it becomes the best ally of those seeking surprise and novelty in the classics. We propose to discover this variety through the Vermouth, but also, we leave your choice to discover the great forgotten variety of large producers.

Taste, complexity and aroma for an incomparable wine

## Perfect Serve

Simple and delicate, with a cad touch.

Ice generously, and even better if the vermouth Forzudo bottle is refrigerated.

Pour half a glass and decorate with a slice dehydrated grapefruit.

You don't need anything else

# Tasting Note

## On sight

Dark red with amber hints and coppery glint.  
Clean, bright and crystalline.

## On the nose

Ripe fruit aromas, herbs, vanilla and toffee.  
Fine balsamic and spicy hints

## On the palate

Fresh start with a perfect balance between acidity and sweetness. A bitter but refreshing, delicate flavor, with a complex and elegant end.

As a whole, Forzudo is a spicy, well-balanced vermouth.  
Contemporary, different and very unique
